

GOSHEN COLLEGE

December 9, 2010

The Honorable Richard Lugar
United States Senate
306 Hart Senate Office Building
Washington, DC 20515-1401

Dear Senator Lugar,

I write to express my support of the DREAM Act which will soon be brought before the Senate. Students who have proven themselves successful in all the best ways we measure success, will continue to live in legal limbo, due to no fault of their own, unless this bill is passed. These young people have succeeded in their studies, are willing to serve in the armed forces, have attended and are attending colleges and universities in Indiana and all across this country. Those who qualify represent the best of our kids.

Many did not even know they were not citizens and grew up believing in the American dream only to discover it is a dream denied. These young people did nothing wrong in action or intent, so the language of "amnesty" does not fit their situation.

Thank you for being a co-sponsor of the DREAM Act. I admire your streak of independence and bipartisanship and appreciate your work on this legislation over the past decade.

Sincerely,

James E. Brenneman
President
